Mayor Coogan and Bristol Elder Services Hosting “Age-Friendly Community” Kickoff

(Fall River, MA- September 10, 2020)- To mark the City of Fall River’s recent designation by the AARP as an “Age-Friendly Community”, Mayor Paul Coogan and Bristol Elder Services will be holding a brief celebration/speaking program outside of Government Center on Tuesday, September 15th at 2pm.

Speakers will include representatives from Bristol Elders, the Fall River and Somerset municipal governments and the State delegation, including Senator Rodrigues, Representative Alan Silvia, Representative Paul Schmid and Representative Patricia Haddad of Somerset. Speakers will discuss Fall River and Somerset’s continued commitment to supporting elderly residents during Covid-19 and into the future. Bristol Elders will also be highlighting the Needs Assessment Survey, which is set to roll out at the end of this week.

While this event is not open to the public, we hope that members of the press will join us and spread the message that Fall River and Somerset are dedicated to creating a safe, healthy community for residents of all ages.
