FY 2022 Budget

(FALL RIVER, MA- June 30, 2021)- The City of Fall River relying on the diligence of our department heads and senior staff have developed an FY2022 budget that was submitted to the City Council in a timely manner so the Council had every opportunity to take appropriate action within the 45 day timeframe pursuant to the City Charter and DOR guidance. The administration believes that this is a solid budget that provides quality services to the residents and businesses, it allows for an appropriate increase in staff and some capital improvements per the needs of our City Department Heads and Division Managers.

The FY2022 budget will take effect @12:01am on July 1, 2021. The administration will work with the City Council to incorporate supplemental appropriations of both increases and decreases that may be necessary and beneficial to the taxpayers of our City going forward.

For additional information please contact the Mayor's Office at 508-324-2600.
