Administrator

ATTENTION
FOR IMMEDIATE RELEASE

Roadwork and a section of water main on North Main Street will be shut down.

The road work will occur starting on 12-8-2022 and last till 12-16-2022. The roadwork is in isolated areas in this corridor for replacement of valves on the water main.

The affected area of the water main shut down is expected to be from President Ave to Alton Street. Isolated areas on the streets from North Main Street to Highland Ave adjacent to this area may also be affected.

Other locations in the area may be affected depending on location of isolation valves.

The shutdown is scheduled for 12/13/2022 starting at 9:00PM and will be in place until the work is completed. The work is not expected to be more than 8 hours.

Door hanger notification tags are being placed on the doors of the customers that we expect will be affected.

We would advise that you draw water for use prior to this shutdown.

We appreciate your cooperation and apologize for any inconvenience.
